

Hello there!

Thanks for purchasing our music pack and supporting our art.

We hope this empowers you to tell the story you want on your games.

We'd love to know how you use these audio files so we can share your game with our audience and fellow game developers. Share it with us!

Are you interested in getting original custom music for your video game?

If so, send us an email at: hello@themillanbrothers.com with a few details:

- Tell us about your game and what it is about. It's helpful if you can send us some links to your game website / artwork / social media / Steam page / Kickstarter / etc.
- What is your estimated budget for the soundtrack?
- What is your timeframe for music?
- Do you have any music references? If you can, attach two or three music tracks that you'd like this custom soundtrack to sound like

We will review all the details and get back to you as soon as we can (Usually within just a few business days).

Thank you so much.
With love, The Millan Brothers.
